

# ANIMAL PROJECT

*Choose an animal to research. Your task is to create an information booklet.*

## Things to find out about:

*Design a front cover. Remember to think about graphic design.*

*Where does your animal come from? Where in the world?*

*What country? Draw maps to show.*

*What habitat does it live in? Describe and draw to illustrate.*

*What other animals live in the same habitat? Is your animal a predator or prey?*

*Explain the life cycle and whether it lives in a group or is solitary. Family or group structure.*

*What environmental issues affect your animal? Explain what and why, and how it could be helped.*

*Explain why you chose the animal and why you think it is important.*
